The divisional system of five divisions (Premier, 1, 2, 3 and 4) in each of the four events (MK1, WK1, WC1 and MC1) and one division in the C2 event ensures that there is a standard of competition suitable for athletes of all degrees of ability. In addition, there is a Veterans division in each of the four events (MK1, WK1, WC1 and MC1) and a competition series for Officials.

2.9.2 Paddle Up

An athlete ranked in any given division may enter single division competitions designed for the next division up (referred to below as the Host division). This is intended to enable athletes to get experience of more challenging racing conditions and to allow them to compare their abilities against higher-division athletes

2.9.3 Paddle Up Participation Conditions

The entry fee payable will be the same as for athletes in the Host division. Paddle Up athletes must wear their normal divisional bib when racing.

2.9.4 Direct Entry

Athletes not already ranked in canoe slalom may enter a division 2 competition in the appropriate event. Provided that the event is quorate, and they achieve a result better than that achieved by 40% of the ranked athletes competing in that event, they may then claim immediate ranking in division 2.

2.10 VETERANS' RANKING (UK)

2.10.1 The Divisional System

Veterans are ranked in a single Division and can enter any ranking competition or Championship event.

2.10.2 Eligibility

- 2.10.2.a An athlete whose 35th birthday is on or before the 31st December in the year in question may elect to become a Veteran in any event, but not necessarily in all the events in which they compete. For example, an athlete ranked in Men's Kayak and Men's Canoe may elect to become a Men's Kayak Veteran but remain as a Master in Men's Canoe (See Rule 1.4.6 for Masters).

Canoe Slalom Rules
Taking effect from 1st January 2024

- 2.10.2.b Any such athlete must first declare to the Veteran Ranking Compiler their year of birth and current divisional status (if any).
- 2.10.2.c Upon application to the Ranking Status Officer (see Rule 6.4.2), any Veteran may revert to divisional status in an event. The revised ranking will start at the beginning of the next season.
- 2.10.3 Calculating points – Quorate Divisional Event (See Rule 1.7)
- Ranking points are obtained by comparing scores with the winning score in the corresponding divisional event according to the following formula
- $$\text{Points} = [(\text{Best Score}) / (\text{Class Winner's Best Score})] \times M + C$$
- Where M and C depend on the host division of the race, with the following values:
- | Division | M | C |
|------------|------|------|
| Premier | -640 | 1640 |
| Division 1 | -480 | 1230 |
| Division 2 | -320 | 820 |
| Division 3 | -160 | 410 |
- 2.10.3.a
- 2.10.3.b Where there is progression from qualification to (semi- finals and) finals, scores are compared with the corresponding divisional event scores to decide whether the athlete progresses or not. Points are calculated by comparison with the score of the leading score at each phase reached; where a veteran athlete reaches more than one phase, the highest points from any phase are awarded for the race
- For example: for a Vet WK1, if the athlete's score is equal to or less than the score of the last placed divisional WK1 qualifying from the heats, the athlete proceeds to the next stage. Similarly, the athlete must match the score of the last placed divisional WK1 qualifying from the semi-final to progress to the final. Points are calculated by comparison with the scores of Divisional WK1 at each phase reached and the maximum points awarded.
- 2.10.3.c In the case of a competition hosting more than one Division, scores will be compared with every Division in the same event and the highest points found will be awarded, for instance, at a Division 2/3 race, a WK1 Veteran's score will be compared with those of WK1 in both Division 2 and Division 3 and the higher score so found will be awarded.
- The minimum points awarded to a veteran will depend on the host division:
 - Division 3 - 10 points
 - Division 2 - 20 points
 - Division 1 - 30 points
 - Premier - 40 Points
- 2.10.4 Calculating points – Inquorate Divisional Event (See Rule 1.7)
- 2.10.4.a In the case of a competition hosting more one Division, ranking points will be calculated against the corresponding Men's Kayak's event using the method described in rule 6.7.
- 2.10.4.b Where there is progression from qualification to (semi-finals and) finals the athlete if they would have progressed in the ranking event..
- 2.10.4.c In the case of a competition hosting more than one Division, where anyone (or more) of the corresponding divisional events is inquorate the Veteran's score will be compared to MK1 winner's scores for that division and to the corresponding quorate divisional events where available. The highest points found will be awarded. For example: A Division 2/3 race hosts a Division 3 WK1 event that is inquorate and a Division 2 WK1 event that is quorate. In this case a WK1 Veteran's score will be compared with winner's MK1 score in Division 3 (using the method described in 6.7.) and her raw score with Division 2 WK1 winner's score (using the method described in rule 3) The highest score so found will be awarded.

2.10.5 End of season results

Ranking positions at the end of the season are calculated on the best five results obtained in the season.

2.10.6 Additional Information

2.10.6.a For single division competitions the entry fee charged shall be the same as for those athletes entering the divisional event.

2.10.6.b At multi divisional competitions the entry fee charged will be that for the highest division competing on that day.

2.10.6.c All registered Veterans must apply to the appropriate ranking officer for a bib.

2.11 OFFICIALS' COMPETITION (UK)

2.11.1 These are not open events. Entrants must be able and willing to do judging or other official duties as requested by the Organisers.

At Division 1 and Premier races an athlete may not enter both a ranking or Championship Competition and an Officials Competition in the same or different events. At Division 2 to 4 competitions such a double entry in different events is at the organisers' discretion and subject to completion of the official's duties.

2.11.2 There is a competition series for Officials based on results at Officials' Competitions at UK Ranking Competitions.

2.11.3 Athletes who have had paddling rights assigned to them by non-paddling Officials shall not be eligible for entry to the series unless the non-paddling Official carry out duties to the satisfaction of the Organiser.

There shall be no requirement for athletes to run in divisional order.

2.11.4 Each athlete for this series must ensure that their Entry is fully completed with Name, and National Association number, and also state the athlete's current division, age category and bib number where applicable. Any entry not conforming to the above will be rejected.

2.11.5 Points will be awarded in accordance with the athlete's result in the Officials Event regardless of category. Points will be calculated in accordance with the formula:

$$\text{Points} = 50 - (\text{position in event} - 1)$$

e.g. the second-place athlete in would score $50 - (2 - 1) = 49$

The fourth placed athlete would score $50 - (4 - 1) = 47$

2.11.6 In the case of a C2 entry, points for competing in the Officials competition will be awarded to the individual members of the crew. Should one member of the crew be found to have competed in both the Officials event and a ranking event, then Rule 2.11.1 will apply to both athletes.

2.11.7 Where an athlete wishes to compete in multi disciplines in the Officials Competition this will be at the organisers' discretion and subject to completion of the official's duties. At the end of the season the points will be totalled for each athlete in accordance with their current division and prizes awarded as appropriate. In the event of a tie, the athlete with the greater number of entries will be considered to be the winner. If the result is still a tie, reference will be made to the best scoring results of the athletes concerned, and the next best, etc until the tie is resolved.

2.11.8 At the end of the season the points will be totalled for each athlete and prizes awarded as appropriate. In the event of a tie, the athlete with the greater number of entries will be considered to be the winner. If the result is still a tie, reference will be made to the best scoring results of the athletes concerned, and the next best, etc until the tie is resolved.

- 6.1.2.a The deadline for entries to Ranking Competitions shall be 15 days prior to the first day of the competition (the Friday two weeks prior to the competition).
- 6.1.2.b The priority entry deadline (before which host athletes get priority of entry) is the Friday four weeks prior to the competition.
- 6.1.2.c The organiser may at their discretion elect not to accept any paddle up entries. Such decision to be clearly marked on the managed calendar return and published in the Calendar.
- 6.1.3 Late entries made after the closing deadline will only be accepted:
- at the discretion of the Organiser and,
 - where there is space on the published timetable and the entry limit has not been reached.
- A late entry fee is payable, unless the athlete has been promoted after the closing deadline. The organising club retains the extra charge in each case and may waive the charge at their sole discretion. There is no late entry charge for Division 4 events. The late entry fees are linked to inflation as in Rule 6.2.4.
- 6.1.4 Entry Limits
- 6.1.4.a The competition organiser may impose a limit on overall number of divisional and open entries, either in the published calendar or at the time of planning the start list. If such a limit is applied, priority of entry shall be as follows:
- Up to and including the Priority Entry Deadline: Host division athletes, in order of receipt of entries.
 - After the Priority Entry Deadline: Host athletes in order of ranking percentile on the Priority Entry Deadline.
- 6.1.4.b If two or more competitors have the same percentile they must be accepted, or remain on the waiting list together, even if this results in a small increase in the maximum entries.
- 6.1.4.c Ranking percentile is the current ranking position divided by the number in the division rounded to a whole percentage. E.g. if there are 70 in the division, the 16th placed athlete will be $16/70 \times 100 = 22.85\%$, rounded to 23%. Where an athlete has not competed, the percentile will be taken from the start of year ranking.
- 6.1.4.d Paddle up entries after the Priority Deadline will be put at the bottom of the paddle up priority list, ordered by date of entry only.
- If an athlete is promoted into the host division, their entry is treated as a host division entry received at the date the organiser is notified. If the athlete has an accepted paddle up entry this will be converted to a Host division entry, otherwise they will remain on the waiting list, but with higher (host) priority.
- 6.1.5 A separate entry must be completed for each event entered (i.e. one for individual and another for team). For entry to the Officials Competition see rule 2.12.
- 6.1.6 Entry Details
- 6.1.6.a Current National Association membership numbers must be recorded for each entry.

If this is not known, then EITHER details of the slalom where promoted to the current division, OR details of entitlement to compete at the event concerned (e.g. the granting of ranking status - state RSC and enclose copy of letter giving status). Division 4 athletes do not complete this section.
- 6.1.6.c Club name (or town name or 'independent' if not a club member) must be stated. Fatuous or offensive names will not be published. A sponsor's name may be added but should not substitute for the first claim club name.

Under 23, Juniors, Veterans and Masters must state their Year of Birth.
- 6.1.6.e Payment of the advertised entry fee must be made to the organiser using one of the advertised acceptable forms of payment for the competition. Avoidance or failed payment will lead to disqualification and may lead to other disciplinary proceedings. Entries accepted, verbally or in writing, by the Organiser in good faith, constitute a promise to pay the correct fee whether or not the athlete takes part in the event.
- 6.1.6.f Entry cards MUST NOT be folded or creased. Use an envelope of suitable size – DL or C5. One stamped and self-addressed envelope (s.a.e) C5 size may be enclosed with entry card for the results to be sent after the competition.
- 6.1.6.g E-mail contact details would be useful for notification of an incorrect entry or over subscription.
- 6.1.7 Entry Cards can be obtained from Club Secretaries, or the Entry Cards Officer,

6.2 ENTRY FEES (UK)

- 6.2.1 Entry Fees are listed on various web sites or may be confirmed by email to the Slalom Committee Treasurer. The entry fee for the team event is at the Organiser's discretion but may not be higher than that listed in the published details.
- 6.2.2 As a trial for the 2024 season, where enhanced fees are not charged, and an athlete enters two singles events at the same competition and on the same day, and at least one of those entries is in division 2, 3 or 4, the lower one of the two entry fees is halved. e.g. if an athlete enters division 2 K1 and division 3 C1, the entry fee for division 3 is halved. The discounted amount may be reclaimed by the organiser from the Slalom Committee.
- 6.2.3 Junior entrants MUST state their year of birth on their entry in order to be eligible for Junior prizes.
- 6.2.4 ENTRY FEES ARE NOT RETURNABLE - except:

- where an athlete is promoted to a higher division and is thus ineligible to compete in an event already entered. The entry fees will be refunded providing the Organiser is notified before the competition.
 - if a competition is cancelled then Rule 20.6 applies.
- 6.2.5 Minimum Entry Fees will be increased annually by the increase in the Consumer Price Index (CPI) according to the formula: $\text{New fee} = A + \{A \times [(B-C) / C]\}$, rounded to nearest 10p.
Where:
A = the entry fee for 2022
B = the index for September immediately prior to the relevant ACM
C = the index for September 2021.
- 6.2.6 Where organisers cannot realistically plan to cover the costs of organising races, e.g. water fees are excessive, they may charge an enhanced entry fee. Justification for this enhanced fee must be submitted to, and agreed by, the Slalom Committee in advance. Clubs must declare in the all published details if enhanced fees may apply.
The enhanced entry fees must be published at least 3 months in advance. Late entry fees are not payable if minimum entry fee is sent with the entry, and enhanced entry fee paid before first runs commence.
- 6.2.7 A competition that allows for advance entry by a method other than post (e.g. via an online system) may charge a booking/transaction fee for use of the entry method. This fee must be clearly distinguished at that time of payment. Where a refund is given (whatsoever the reason) there is no requirement for the booking fees to be returned.
Traditional valid methods of entry must be accepted and given equal treatment.

6.3 ACCEPTANCE OF ENTRIES (UK)

- 6.3.1 The Organiser will acknowledge receipt of entries. In the case of ranking competition this will be by publishing a start list.
- 6.3.2 The Organiser must accept all entries which are correctly made unless the published limit for the Competition has been reached.
- 6.3.3 Incorrect or incomplete entries should be rejected by the Organiser, in particular if they are illegible, or lack the correct fee or do not show membership number.

6.4 RANKING LISTS (UK)

- 6.4.1 Ranking Lists
- 6.4.1.a Published ranking lists show the division and position (bib number) of each ranked athlete at the start of the new season.
- 6.4.1.b Juniors and those Under 23 (who declare their year of birth), Masters, Woman and Mixed C2 pairs, will be identified on end of season ranking lists, where the information is available.
- 6.4.1.c Those who have elected for Veteran status and have competed will be shown in separate lists.
- 6.4.2 Re Ranking
- 6.4.2.a Athletes ranked in any previous season but who did not compete last year must apply to the Ranking Status Officer for ranking status before participating in that event.
- 6.4.2.b On applying for ranking an athlete may state the division preferred, but the Ranking Status Officer has the final say. athletes will normally be reinstated into the same division in which they were last ranked.
- 6.4.3 Changing Event

Any athlete wishing to compete in another event, must compete in the division below their lowest current ranking, unless it is considered more appropriate for them to compete in a different division, in which case, application must be made to the Ranking Status Officer.

6.4.4 New athletes

- 6.4.4.a New individual athletes usually compete in Division 4. Those not ranked in any previous season may apply for direct entry to Division 3. A new individual athlete who wins three quorate Division 4 events must apply to the Ranking Status Officer for ranking in Division 3.
- 6.4.4.b Those of proven ability may apply to the Ranking Status Officer giving full supporting evidence as to why they should not have to begin in Division 3.
- 6.4.4.c Ranking Status must be taken up to the season in which it is granted
- 6.4.4.d New C2 pairings that have not applied for ranking status may enter any competition at division 2 or below

6.5 PROMOTION AND RANKING (UK)

- 6.5.1 Promotion during the season through the divisions is based on performance at events as set out in rule 6.6 and 6.7. Promotion and demotion also occur at the end of each season, as decided by the Slalom Committee, when ranking lists have been finalised. athletes granted ranking status after 31st July are designated 'Short Season'. athletes promoted during a season are also designated 'Short Season'. Those designated 'Short Season' will not be demoted at the end of that season.
- 6.5.2 Athletes who have been unable to race in a major part of the season due to unforeseen circumstances, may apply to be protected from demotion. Such applications must be in writing and received by the 31st October of that season. Such status is discretionary. Applications will be decided by the Slalom Committee following a recommendation by the Ranking Status Officer.
- 6.5.3 Ranking Figures: In order that an athlete's score at one competition may be compared with someone else's score at another competition, scores are converted into 'points' by the methods described in rules 6.6 and 6.7. which are then used to determine ranking positions. To determine ties on end of year ranking lists based on points, reference is made to the best scoring results of the athletes concerned and then the next best, etc., until the tie is resolved.

6.6 RANKING CALCULATIONS (QUORATE EVENTS) (UK)

See Rule 1.7 for the definition quorate and inquorate

6.6.1 Points Awarded in each Division

The maximum (winners) points in each division will be:

Premier 2000 Points

Division 1 1000 Points

Division 2 500 Points

Division 3 250 Points

6.6.2 C2 Points Calculation

- 6.6.2.a Ranking points awarded will be those given to the athlete in the corresponding Men's Kayak event whose score matches the athletes modified score, which is calculated by dividing by 1.2 and rounding down to the accuracy of the competition.
- 6.6.2.b Unranked crews must apply for Ranking Status within 5 weeks of the competition in order to retain the ranking points allocated.

6.6.2.c Note: Where the athlete's modified score does not correspond exactly with an athlete in the corresponding Men's Kayak event, then the points awarded to the next highest placed Men's Kayak athlete will be used. In the case that the modified score matches the score of more than one athlete in the Men's Kayak competition then the points awarded to the higher placed Men's Kayak athlete will be used. Multiple division competitions will be ranked against the highest corresponding Men's Kayak results.

6.6.3 All Divisions

6.6.3.a For points purposes, host division accordance with the formula: Points = [div max] - ((position-1) x ([div max]/No. of host div comps))

e.g. in a Premier event with 32 boats, the eighth placed athlete would receive:

$$2000 - ((8-1) \times (2000/32)) = 2000 - (7 \times 62.5) = 1562.5 \text{ points}$$

rounded to 1563

e.g. in a Division 2 event with 32 boats, the eighth placed athlete would receive:

$$500 - ((8-1) \times (500/32)) = 500 - (7 \times 15.625) = 390.625 \text{ points}$$

rounded to 391

6.6.3.b All scores are rounded to the nearest whole number. Rounding, at the final calculation only, is as follows:

- when the unrounded figure is less than .5, round down,
- when the figure is .5 or greater round up,

e.g. 123.5 = 124; 133.6 = 134; 270.1 = 270.

6.6.3.c An athlete who does not finish at least one run gets 0 points. Points are awarded based on the number of starters not the number of athletes.

Note: Where there is a dead heat (rule 10.18, equal points are given, calculated for the highest placed such athlete.

6.6.4 Paddle Up Points Calculation

6.6.4.a Provided that the host division event is quorate, paddle up athlete's points are obtained by comparing scores with the corresponding host division event. Where a score does not correspond exactly with a score in the host division event points will be awarded for the next place higher.

6.7 RANKING CALCULATIONS (INQUORATE EVENTS) (UK)

See Rule 1.7 for the definition quorate and inquorate

6.7.1 In the case where a Men's Kayak Singles event is inquorate, the points obtained using the quorate calculation will be divided by two before allocation.

6.7.2 In the case where a Women's Kayak Singles or any Canoe Singles event is inquorate, points awarded to the first placed athlete will be those given to the athlete in the corresponding Men's Kayak Singles event whose score matches the athletes modified score, which is calculated by dividing by the following factor and rounding down to the accuracy of the competition.

Women's Kayak Singles. 1.17

Men's Canoe Singles. 1.13

Women's Canoe Singles. 1.25

Note: Where the athlete's modified score does not correspond exactly with an athlete in the corresponding Men's Kayak Singles event, then the points awarded to the next highest placed Men's Kayak athlete will be used. In the case that the modified score matches the score of more than one athlete in the Men's Kayak Singles competition then the points awarded to the higher placed Men's Kayak athlete will be used. Multiple division competitions will be ranked against the corresponding Men's Kayak Singles results.

- 6.7.3 Where there is progression from qualification to (semi-finals and) finals, modified scores are compared against the Men's Kayak Singles scores to decide which athletes in the in-quorate class progress to the next phase of the competition. After all the phases of the competition have been completed, the modified score of the highest placed athlete is then compared against the Men's Kayak Singles score in the corresponding phase of the competition to allocate maximum points for the in-quorate class.

For example, if the highest placed athlete progresses to the semi-final of the competition then their modified score is compared against the Men's Kayak Singles scores to allocate points.

- 6.7.4 Points calculated for other athletes in an in-quorate Women's Kayak Singles or any Canoe Singles are calculated using the formula for a quorate event (see Rules 6.6.3) as if there were 5 athletes starting, and using the point calculated for the first placed athlete in the in-quorate event as the maximum points [div max] for the in-quorate event. e.g. Calculating points for a division 2 WC1 event with 3 athletes, where the 1st placed athlete scored 350 points (calculated against the corresponding Mens Kayak Singles event) the remaining athletes point are calculated as follows:

$$\text{Points} = [\text{div max}] - ((\text{position}-1) \times ([\text{div max}] / 5))$$

The 2nd places athlete would score: $350 - ((2-1) \times (350/5)) = 350 - (1 \times 70) = 310$ points.

The 3rd places athlete would score: $350 - ((3-1) \times (350/5)) = 350 - (2 \times 70) = 260$ points

6.8 PROMOTION (UK)

- 6.8.1 Promotion will be gained by attaining the following points from the five best results:

Division 1 to Premier 4750

Division 2 to Division 1 2350

Division 3 to Division 2 1100

Or, in each case, achieving the division maximum points or more three times.

- 6.8.2 End of season results

Ranking positions are calculated using the best five results. In the event of a tie, refer to Rules 2.7 (championship tie break) or 10.18 (ranking tie break).

- 6.8.3 Retaining Points on Promotion

6.8.3.a Any points earned as a paddle up are retained (for that season only) upon promotion to the next division. Any points earned in the existing division are lost on promotion. Paddle up points are retained for the next division only and are lost on any subsequent promotion in the season.

6.8.3.b By way of clarification: points cannot be carried over from one year to the next. All points are lost at the end of the season.

 - Usual safety precautions are observed.
 - A rescue squad is in place when it is required.
 - Official training runs are completed as a single attempt at the course.
- 9.7.6 **UK** Non-observance of any of the above conditions is grounds for disqualification. In the event that a paddle breaks during a training run, an athlete may accept external help and continue the course. In the event of a capsized, the run can be continued from the point of the capsized.
- 9.7.7 **UK** At Division 1 to 4, periods for additional practice runs and free practice and procedures for the control of organised free practice must be detailed in the start list. Free practice is allowed at the discretion of the Organiser subject to adequate safety and control provision. During all organised practice there should be at least two persons supervising safety, one at the start to organise regular starts and at least one other along the course to ensure that full runs only are attempted where required by the rules or by the Organiser.
- 9.7.8 **UK** Where a competitor competes in more than one event, they may take any organised practice runs that are available for the class. If free practice is not available for one of the classes, they may not do free practice for either event.
- 9.7.9 **UK** Those competing in the veterans class are restricted by the practice rules for the highest ranking division that they are being compared to.

CHAPTER 10 - COMPETITION

I - Start, Finish and Timing

10.1 START

- 10.1.1 Starts should be directly upstream or downstream.
- 10.1.2 An assistant to the Start Judge may hold each boat at the starting position until the start.
- 10.1.3 The boat must be stationary at the start
- 10.1.4 In the team runs, all boats must be stationary. The boat in the start gate must activate the timing of the run. The boat can be either A, B, or C
- 10.1.5 In all cases the athletes must follow the Start Judge's positioning or special instructions.

10.2 START INTERVAL

- 10.2.1 In individual events, starts are separated by at least forty-five seconds.
- 10.2.2 In the team events, starts are separated by at least ninety seconds.
- 10.2.3 **UK** Organisers must run competitions according to the published schedule showing athletes start times. If the event is ahead of schedule, an athlete who is present at the published time must be allowed to start.

10.3 FALSE START

- 10.3.1 Only the Start Judge is qualified to determine that a false start has occurred and to recall the athlete by means of an appropriate signal.
- 10.3.2 * The Start Judge determines if a second start is given and notifies the Chief Judge of their decision.

10.4 FINISH

- 10.4.1 The finish line must be marked clearly on both sides of the course.
- UK** The Start and Finish may not be the same gate.
- 10.4.2 An athlete's run is complete when the finish line is broken by the athlete's body. The athlete must not cross the finish line more than once or risk disqualification for that run (DSQ).
- 10.4.3 In the team event all three (3) boats must cross the finish line within 15 seconds of each other or incur a 50 second penalty (see rule 10.9.6).
- 10.4.4 If an athlete crosses the finish line upside down or capsized, (see rule 10.15), as deemed by the Finish Judge, then the athlete will be given a DNF for that run.

10.5 TIMING

- 10.5.1 The time of a run is measured from the time that the athlete's body or electronic device (on body or boat) breaks the start line to the time when the finish line is broken by the athlete's body or electronic device (in C2, the first body that crosses the line).
- 10.5.2 In teams racing the time is measured from the time when the first athlete breaks the start line to the time the last athlete breaks the finish line.

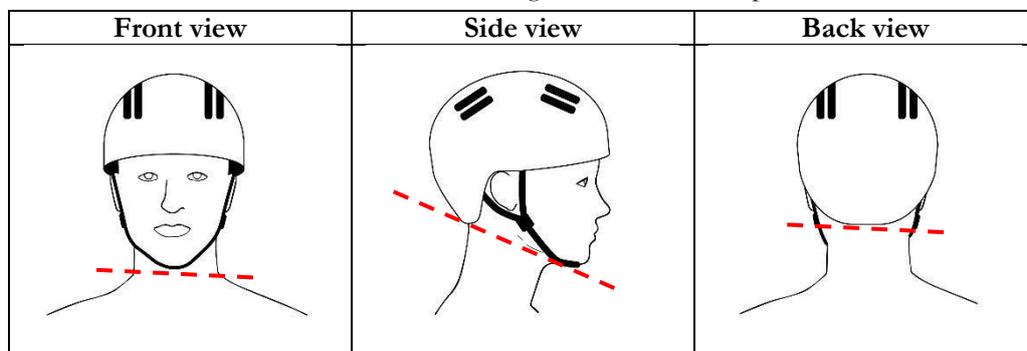

- 10.5.3 **UK** Where a Slalom Committee approved electronic timing system, with double electronic beam start and finish, is used the competition shall be timed and scored to 0.01 seconds. In the event of failure of the electronic start/finish for the whole of an event then manual start and/or finish shall be used, and times and scores calculated to 0.1 second.
- 10.5.4 **UK** Where any other start and/or finish method is used the whole competition shall be timed to 0.1 seconds (or complete seconds with the approval of the Chief Judge).
- 10.5.5 **UK** All fractions of a lesser order than that specified shall be ignored in displaying times and final scores.
- 10.5.6 **UK** All competitions must have independent back-up timing.
- 10.5.7 **UK** Where back-up times have to be used in a few cases (not amounting to a total breakdown) they will be to the same standard as set for the event concerned. It is recommended that synchronised digital stop watches, one at start and two at finish, recording 'time of day' to 0.01 second be used.
- 10.5.8 **UK** The Chief Judge will make regular checks on back- up timing and may suspend the event if undue discrepancy is found.

II - Gate Negotiation and Judgment

10.6 NEGOTIATION

- 10.6.1 All the gates must be negotiated in numerical order.
- 10.6.2 All gates may be negotiated in any presentation from the correct side of the gate as displayed by the gate number panels.
- 10.6.3 The gate line, in all circumstances is defined as the line between the outside edge of the bottom of the two (2) poles, projected from the end of the poles vertically to the riverbed.
- 10.6.4 The following conditions must be satisfied for negotiation of the gate:
 - 10.6.4.a Negotiation of the gate begins when the boat or the body or the paddle touches a pole of the gate or part of the head of the athlete (in C2, one (1) of the two (2) athletes) breaks the gate line.
 - 10.6.4.b Negotiation of a gate is ended when the negotiation of any subsequent gate begins, or the finish line is crossed.
- 10.6.5 The following conditions must be satisfied for a gate to be considered correctly negotiated:
 - 10.6.5.a The whole head of the athlete or athletes must cross the gate line in accordance with the correct side of the gate and the course plan. A whole head is defined as follows:

- 10.6.5.b Part of the boat must cross the gate line at the same instant as the whole head crosses the line.

10.7 ZERO (0) PENALTY SECONDS

- 10.7.1 Correct negotiation without touching the pole with any part of the body, equipment, paddle, or boat.

10.8 TWO (2) PENALTY SECONDS

10.8.2 Repeated touching of the same or both poles is only penalised once.

10.9 FIFTY (50) PENALTY SECONDS

- 10.9.1 A touch of a gate (either 1 or 2 poles) without correct negotiation of the gate.
10.9.2 Intentional pushing of a gate to allow negotiation unless correctly renegotiated before any subsequent gate is negotiated. An intentional push is an unexpected action of the Athlete to enable correct negotiation of the gate.
10.9.3 The head of the athlete (in C2 one, or both athletes) breaks the gate line upside down unless correctly renegotiated before any subsequent gate is negotiated (for definition of upside down see rule 10.15.1).
10.9.4 Any part of the head of the athlete breaks the gate line in the wrong direction during negotiation of the gate, unless the negotiation of the gate begins in the correct direction and finishes in the correct direction before any subsequent gate is negotiated.
10.9.5 Gate left out: this is determined to have occurred when negotiation of any subsequent gate begins, or the finish line is crossed.
10.9.6 The last team member failing to cross the finish line within fifteen (15) seconds of the first team member to finish.
10.9.7 Part of the head breaks the gate line (in C2, one or both athletes) in the correct direction, with or without part of the boat, unless correctly renegotiated before any subsequent gate is negotiated.

10.10 UNDERCUTTING OF A GATE

- 10.10.1 Undercutting of a gate by the athlete with any part of their body or equipment, except part of their head, without a touch is not penalised.

10.11 REPEATED ATTEMPTS AT A GATE

- 10.11.1 Repeated attempts at a gate without touching the poles is not penalised if part of the head of the athlete(s) has not broken the gate line in the wrong direction.

10.12 MAXIMUM PENALTY FOR A GATE

- 10.12.1 Fifty (50) penalty seconds is the maximum obtainable by one (1) athlete on any one gate.

10.13 BENEFIT OF ANY DOUBT

- 10.13.1 At all times, the benefit of any doubt must be given to the athlete.

10.15 UPSIDE DOWN AND CAPSIZE

- 10.15.1 The boat is considered upside down when the head of the athlete is entirely under water.
- 10.15.2 It is considered to be a capsize when the athlete (or an athlete in C2) has left the boat completely.
- 10.15.3 A roll is not considered to be a capsize.
- 10.15.4 In team runs, members of the team may help each other to roll without penalty.

10.16 DISQUALIFICATION FOR THE RUN

- 10.16.1 If an athlete competes in a boat or with equipment, which does not conform to the rules, the Chief Judge should disqualify them for that run. (DSQ).
- 10.16.2 The Chief Judge should disqualify for the run, an athlete who accepts outside assistance. (DSQ)

IV - Results Calculation

10.17 CALCULATION AND POSTING OF RESULTS

10.17.1 The following formula is used to calculate the results:

$$\text{best time run in seconds} + \text{penalty seconds} = \text{result}$$

10.17.1.a Sample for an individual score in each run

Running time:	2'20.82"	=	60 + 60 + 20.82	=	140.82	seconds
Penalty seconds:			2 + 2 + 50	=	54.00	seconds
Total:		=		=	194.82	seconds

10.17.1.b Sample for Scoring of a Team in each run:

Time between the start of the first boat and the arrival of the last boat: 2'20.82"

Running time:	2'20.82'	=	60 + 60 +	=	140.8	Second
			20.82		2	s
Penalty seconds of first boat:		=		=	104.0	Second
					0	s
Penalty seconds of second boat:		=		=	154.0	Second
					0	s
Penalty seconds of third boat:		=		=	56.00	Second
						s
Total:		=		=	454.8	Second
					2	s

10.17.2 As soon as the results of a run for an athlete or team are known, the start number, the penalty-seconds, and the time should be posted in the designated place until the time for filing enquiries has elapsed.

10.17.3 The following notations will be used in reporting the results:

DNS	Did not start
DNF	Did not finish
DSQ	Disqualified for particular run
DQB	Disqualified for the whole competition

In case of DQB – no classification is recorded.

10.17.4 Athletes with normal results in, at least, one (1) run, should be sorted normally.

10.17.5 *Athletes/Teams receiving (DNF or DSQ or one (1) DNS combined with DNF or DSQ in multiple runs) should be sorted by Bib Number.

10.17.6 Athletes with only DNS result in multiple or single runs should not be ranked.

10.17.7 *In the semi-final or final phase of a competition, an athlete who receives a DNS will be ranked and will receive ranking points from their previous phase completed.

10.17.8 * In the semi-final or final phase of a competition, where athletes receive a DNF, DSQ or DNS, they are listed and ranked in the following order DNF, DSQ then DNS. In the case that two (2) athletes have the same code they will be ranked and will receive ranking points by their results in the previous phase.

10.17.9 In the results output that includes multiple runs, results should be shown just for the completed run.

10.17.10 For DQB boat(s) the boat(s) are eliminated from the whole competition and will not be ranked. The results, which have already been achieved from a phase when DQB subsequently occurs, will not be shown in the results or the race analysis of that particular phase. Results for phases, which the boat(s) completed before disqualification, will remain.

10.17.11 **UK** Official Results

- 10.17.11.a These will be posted at the end of the race and will contain two signatures, the Chief of Scoring (responsible for the collation and production of results) and the Chief Judge. The signature of the Chief of Scoring will attest that the results produced are accurate and that the race has been timed and scored appropriately. The signature of the Chief Judge shall attest that there are no outstanding protests or actions that will result in changes to the results.
- 10.17.11.b Where there has been an error in the result or points for an athlete, they may appeal to the Secretary of the Slalom Committee to review / amend their result. Any such amendment will only affect the points allocated to the athlete, not any other results.
- 10.17.11.c At the end of an event the final published results will be deemed to be the official record of the race. Where an athlete is subsequently declared ineligible to compete or disqualified for the competition, only their result will be removed. The points awarded to other athletes will not be recalculated. Where an error has been made in the calculation of points for a whole event, the points will be recalculated, and the revised results published.

10.18 DEAD HEAT / TIES

- 10.18.1 Where two (2) or more athletes obtain the same result as their best run, the lower result of their other run will resolve the tie. If this does not resolve the tie, then the athletes are given the same ranking for the phase.
- 10.18.2 * In the case where a tie for a position that qualifies the athlete for the next phase (semi-final or final) cannot be resolved, the tied athletes will progress to the semi-final or final with the bib number(s) placed above the higher bib number(s).
- 10.18.3 Medal awarding for tied boats:
- In case of two (2) boats sharing the gold, the silver medal will not be awarded.
 - In case of three (3) or more boats share the gold; no silver and bronze will be awarded.
 - In case two (2) or more boats share the silver, no bronze medal will be awarded.

If they have the same number of faults, they will be ranked based on the correct progression through the course. The athlete who progresses further through the course before the fault occurs will be ranked higher.

- 16.27.1.d If there is a tie in the time trials, then the current Kayak Cross World Ranking will be used to break the tie and as an ultimate tie breaker there will be a draw to decide the ranking.
